

# Questionnaire: Loading Load

## Loading Management

Date of the assessment	
Do the animals have access to drinking water during waiting?	
○ Ja	
C Nee	
Record the maximum duration of water deprivation before loading (in hours):	
Select the answer that corresponds to the current situation: Prior to loading (waiting room), the animals are: If the pigs wait in their own pens, select "left in stable groups".	
(Indicate 1 option)	
C left in stable groups	
are mixed with animals from other group(s)	

### During loading, the animals are:

(Indicate 1 option)

- C left in stable groups
- are mixed with animals from other group(s)

## **Actual Loading Procedure**

1/10

Assess - per loading group - if any of the pigs are: reluctant to move turning back slipping / falling panting shivering lame sick

#### Number of the group/loading batch:

(1 optie aanduiden)

Remarks
Please, record any additional information that might be <b>relevant</b> for the <b>interpretation</b> of the results of the sca (such as: heat wave, disease outbreak,).
End of Assessment
Please, confirm that these results are valid and accurate?
If you did not perform a valid and accurate scan, these results should NOT be included in the benchmarking. You will receive an automated report of the uploaded results in any case.
